Collaboration	GitHub, Bitbucket, Jira, Slack, Microsoft Teams
Methodologies	Agile, Scrum, Git-based workflows
Languages	English (Fluent), Spanish (Native)

Professional Experience

- 2023 – Present **Frontend Tech Lead, Blue Core S.A.**
- Led the frontend development at a large scale web banking platform which will serve 200,000+ users.
 - Successfully delivered 8 customer journeys, including processes like onboarding, user unlock, user retrieve and more.
 - Integrated third-party services for biometric validation and online session booking like FacePhi and MS Bookings.
 - Built the application with Angular 19 and consuming RESTful APIs through AWS Lambda services and API Gateway.
 - Designed frontend standards in order to improve performance and maintainability.
 - Mentored developers through code reviews and pair-programming to keep high level code quality.
- 2021 – 2022 **QA Engineer, Blue Core S.A.**
- Implemented automated End-to-end (E2E) tests using Cypress and Appium to validate important user flows in web and native iOS and Android builds.
 - Developed CI/CID pipelines using Fastlane and Github Actions for building, testing, and release.
- 2020 **Frontend Developer, Bath & Body Works**
- Maintained 8 e-commerce websites for multiple markets in Latin America.
 - Implemented UI updates and features using Vtex CMS.
- 2019 **Junior Web Developer, Venmetro Inc.**
- Contributed to the development of a fintech web platform serving around 1,800 monthly users.
 - Worked with Ruby on Rails and Vue.js to maintain frontend components while strengthening my full-stack knowledge.

Entrepreneurial Experience

- 2022 – Present **Lead Developer, One Spot Inc.**
- Led the end-to-end development of web and mobile ticketing platform tailored to social and cultural events, with more than 8,000 registered users and surpassing the 15,000 tickets sold in less than 2 years.
 - Built and maintained the platform using Vue.js, Ionic and Capacitor.
 - Implemented core features as authentication, real time data updates, push notifications, analytics, and secure API consumption using Firebase services.
 - Integrated credit card payment gateways like NMI and local bank digital wallets, allowing for secure transactions.
 - Engineered the full-stack project, from frontend architecture and backend infrastructure to deployment releases on App Store and Google Play.

Education

Master's Degree in Software Engineering, Panama
Bachelor's Degree in Systems Engineering, Panama
